

green(er) living expo

November 6, 2021 • 10 a.m.–5 p.m.

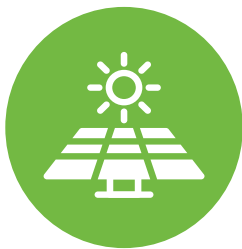

Please join us for the 14th Annual Green Living Expo, focusing on renewable energy, waste reduction, food and farming, and fun and recreation. Presented virtually in 2021.

www.mchenry.edu/greenexpo

The Green Living Expo has gone green(er)! This year we are bringing you many new vendors and exhibitors as well as several live presentations throughout the day via an easy to use online platform.

The Green Living Expo brings sustainable choices to our community. We know that even a few changes can add up to make a significant, positive impact on our environment—and the Expo affords our vendors the opportunity to connect directly with community members to show them easy ways to go green. Reserve your spot now to join us on November 6, 2021 for an exciting virtual expo!

This year's Expo will focus on four tracks:

**Renewable
Energy**

**Waste
Reduction**

**Food and
Farming**

**Fun and
Recreation**

This year's Expo will offer live tours, workshops, speakers, giveaways, live chat sessions with our vendors, and much more. We are currently planning:

- Live tour of the MCC High Tunnels and new solar array
- Live backyard chickens presentation
- Live canning, preserving, and freezing demonstration
- And more!

For the most up to date agenda and for more information on how to attend, visit www.mchenry.edu/greenexpo.
